

# Thank you for *partnering* with **Vitalogy SKINCARE!**

We hope your participation in this fundraising project is successful for your organization.

It is also our hope that your organization and its members help lead the way in promoting Skin Cancer Awareness and Prevention by advocating the use of sunscreen and other sun protective measures.

*Just follow these simple steps for a successful campaign:*

## 1. **Decide on a Deadline – Set Your Price**

Determine a deadline by which you need the sales sheets back. It will take between 3–4 weeks for you to receive your order. Set the selling price that would be most successful for your group and in your community. Have your members write in this information at the top of the sales sheets.

## 2. **Set a Target – Go out and SELL!**

Set a target for each seller - many schools set a goal of at least 10 per student. Supply each member of your organization with the Fundraiser Sunscreen Sales Sheet and have them go out and sell as many bottles as possible. Have the students return the sheets to you along with collected cash and checks (made payable to your organization.) There is no need to collect sales tax because sunscreen is a TAX-FREE Product!

## 3. **Place your Online Order**

Tabulate the total number of bottles needed and place your organization's total order at

[www.vitalogy.logoshop.com](http://www.vitalogy.logoshop.com)

You may deposit the collected cash and checks into your organization's bank account and remit one total payment to Vitalogy SKINCARE.

## 4. **Distribute The Orders**

You will receive your orders in approximately 3–4 weeks for your members to distribute to their customers.

If at any time in your organization's fundraising campaign you have any questions, you may contact us at [Sunscreen@VitalogySkincare.com](mailto:Sunscreen@VitalogySkincare.com).

### **About Vitalogy SKINCARE**
