Be an advocate for Skin Cancer Awareness and Prevention!

Know the Facts:

- Skin cancer is the most common form of cancer in the United States.
- One in five Americans will develop skin cancer.
- Melanoma is the most common form of cancer for young adults 25-29 years old and the second most common form of cancer for young people 15-29 years old.
- Spending time in the sun increases your risk of skin cancer and early skin aging.
