

At Vitalogy, we go beyond skincare — we practice patient care. Not only committed to providing you with the highest level of care, we're dedicated to arming you with the knowledge and education necessary to care for and protect your skin. Vitalogy. For life, and the life of your skin.

512.930.3909 [www.VitalogySkincare.com](http://www.VitalogySkincare.com)

In the best effort to provide the highest level of patient care and communication during the referral process we are glad to provide you with a *free*, simple to use, web application that facilitates referrals into our office with real time communication between our offices and most importantly *our* patients.

### How do you access the Vitalogy Skincare Referral Application?

Simply type the web address below into any web browser on PCs, laptops, or tablets and bookmark or save to your home screen for one click access. Optimized for Google Chrome and Safari. *\*Please note that last 5 letters are upper case*

<http://leadingreach.com/CDGTY>

### How do you use the Vitalogy Skincare Referral Application?

Launch the Referral App in your browser from any computer or work station. Select your referred to doctor, click 'Email', enter patient information, referring physician information, referral notes, and click submit.

Watch the quick 'How To' video at [www.vimeo.com/71530853](http://www.vimeo.com/71530853)

### What are the Benefits of using the Vitalogy Skincare Referral Application?

**Its All About the Patient:** Provide a higher level of patient care and better communication at the point of referral. Eliminate business cards and referral slips and provide three way, real time communication between offices and patients

**Save Staff Time During the Referral Process:** Eliminate unnecessary phone calls and wasted time on hold and at the fax machine while ensuring timely follow up and next step patient care from our office

**Its All About the Data:** FINALLY, a solution that allows your office to manage your referral network and track patients in and out of your office with real data in real time!
